### Renger introduces RACENAVIGATOR

Amsterdam, 30 March 2007 - Renger van der Zande launches the race edition of an in-car navigation system. Together with the Dutch company CosmicNavigation the young driver introduced a unique product on the Dutch market. Besides his ambition in the A1GP and the F3 Euro Series Renger makes sure that car owners reach their destination in a "inspiring and quick" way.

In Car navigation knows already a broad application. New is an execution for which has been inspired by the race sport. CosmicNavigation based in Amsterdam, created together with Renger this unique edition. Under the name RaceNavigator, a race-version of the navigation software has been made, with exclusive commands of Renger. The software is furthermore adapted with race-icons, pit contact and instructions of the race-car driver. Also all kartcircuits and other race locations are included. Users experience the ultimate race experience with this race navigation system, a 'musthave' in every car of racefreaks.

Renger van der Zande is wild enthusiast over het nieuwe product. Buiten het plezier van het studiowerk, waar de "voice-over" met Renger werd opgenomen, is hij vooral ook trots op het mooie product dat het uiteindelijk geworden is. CosmicNavigation is blij met de samenwerking met de jonge pupil van nestor Jan Lammers. Het bedrijf, een innovatieve ontwikkelaar van op maat GPS toepassingen, maakt navigatieproducten van hoge kwaliteit en met unieke ontwerpen. Cosmic zit in een snelle groei, waarbij naast de raceversie ook een sportversie en een hoop private label uitvoeringen op de markt komen.

Renger van der Zande is extremely enthusiastic about the product. Besides the fun in the studio, where the 'voice-over' has been recorded, he is happy with the final result of the product. CosmicNavigation is proud of the cooperation with the young pupil of nestor Jan Lammers. The company, an innovative developer of customised GPS solutions, makes high quality navigation products with unique designs. CosmicNavigation is fast growing, next to the race version also a sports version and other private labels will be brought on the market.
